Summary

I am a motivated and focused individual who puts full effort into achieving goals and exceeding expectations. I value being a team player, being dependable, and seeing mistakes as opportunities to learn and improve. I have a strong background in building scalable systems, with experience in technologies Flask, .Net, React and more. I'm a C1-level English speaker, currently pursuing a Master's in ICT with a major in software engineering and a minor in cybersecurity.

Education

FAST - National University of Computer and Emerging Sciences | Lahore, Pakistan
